Windham Technical Advisory Committee Meeting
6-8-2005

Attendees: J. Gross, Greg Cappiello, Alan Carpenter, Eric DeLong, and Carl Heidenblad.
Excused: Paul Keller, Jacques Borcoche

- Meeting Called To Order 7:20 pm:
- A discussion of an upcoming Fire Department software purchase was initiated by Alan. Alan will provide additional information. The TAC will review the options and make suggestions by next meeting.
- Minutes of 5-11-2005 approved.
- Library Backup Discussions followed. Removable external hard-drives were presented and the SATA solution was selected for speed. Carl purchased both USB2.0 and SATA cards. Carl will try the 30-day evaluation of the Acronis workstation product. If successful a purchase will follow. Eric may also adopt the solution in Town offices if successful.
- Networking integration discussion of the cable modem/wireless and T1 services was put off until next meeting.
- The drafted Rules of Procedure were not available for review.
- The two TAC recommended black/white laser Samsung Printers (ML-2251NP) were installed last month and working well.
- Alan mentioned that school committee members would welcome TAC input into the High School technology needs planning. Current efforts would be premature due to other more pressing logistical issues.
- J and Carl showed the group one of the remanufactured IBM PC's recently purchased for the library. The units represent a highly cost effective solution for the Town.
- **Our next scheduled meeting is 7PM Wednesday July 6th due to scheduling conflicts with the usual second Wednesday of July.**

- The Meeting Adjourned at 8:07 pm.
