12 Sheffield Street - Minimum Impact Dredge & Fill

Mr. Jarosky presented this plan to the Members. There is a 441 square foot wet area that the owner, Mr. Chang Chung, would like to fill in. There is a 10-foot hole in the back yard which is a safety hazard for the children. The Members scheduled a site walk for Monday October 29, 2001 at 4:15 PM. The Commission will provide comments after the October 29th site walk.

Heritage Acres Subdivision - Planning Board Plans

After reviewing the plans submitted the Members decided that they would like an Engineer to accompany them on a site walk. Plans submitted are too complex to comment on prior to a site walk. Comments will be provided after the Members have had the opportunity to view the site.

After reviewing the plans submitted the Conservation Commission requests soils and wetland information and finished grading and drainage. What is the intent of the new building?
